

## Summary

### **Feature Upgrades:**

- **Feature Upgrade: Drive Recorder**

### **Quality improvements:**

- **Quality Improvement: Remote Control Parking (RCP)**
- **Quality Improvement: Recuperation Processes**

### **Service Tasks:**

- **Service Task: Programming the Integration Platform for Driver Assistance**

### **Special Note: BMW's Remote Software Upgrade**

**BMW's Remote Software Upgrade enhances your vehicle's existing functionalities to the latest standards. New features depend on your vehicle's equipment, detailed in the Owner's Manual, at your service center, or through BMW Customer Relations.**

**All installed BMW ConnectedDrive apps and the Integrated Owner's Manual are automatically updated. Restart the vehicle if control messages appear.**

**If you perform the upgrade during charging, the charging process may be interrupted and may not continue automatically (for PHEV/BEV).**

**Unapproved modifications may cause issues during or after the upgrade, for which BMW is not liable.**

## **Feature Upgrade: Drive Recorder**

**Videos from your Drive Recorder and Anti-Theft Recorder are available in your My BMW App.**

## **Quality Improvement: Remote Control Parking (RCP)**

**The Remote Control Parking function will be fully enabled after the software upgrade and can be reactivated through the ConnectedDrive Store**

## **Quality Improvement: Recuperation Processes**

**This software enhances the electric recuperation processes.**

## **Service Task: Programming the Integration Platform for Driver Assistance**

**The current software version of your vehicle may cause Check Control messages to persistently display and audible signals to sound when the rear carrier is utilized. This issue is resolved by the upgrade.**
